

POETRY.

THE SONG SPARROW.

Can you hear the sparrow in the lane Singing above the graves? he said, He knows my gladness, he knows my pain, The Spring be over and Summer be dead.

HEAVY SHOES FOR LADIES.—Winter is coming and we desire to say a few words to our lady readers about clothing the feet.

When the celebrated physician Abernathy, died, report said that, beside a will of some interest to his heirs in a pecuniary point of view, there was found among his other effects a sealed envelope said to contain the secret of his great success in the healing art, and also a rule of living, the following of which would insure longevity.

A large price was paid for the sealed envelope. It was found to contain only these words: 'To insure continued health and ripe old age, keep the head cool, the system open and the feet warm.'

Dry feet, are warm feet, generally, if the system is healthy. To keep the system healthy the circulation must be good. The circulation is not good without exercise and exercise can only be really valuable when walking. Riding in a carriage is no exercise at all; it is merely inhaling the air. This is very well as far as it goes, but the lungs are never in full play without the individual walking.

Now the ladies of Europe, particularly those of England, understand this thing. They walk miles per day and if any of our pale beauties desire to know how the English ladies keep up their fine color, clear complexion, superb busts, we tell them it is by out door exercise walking in the open air, filling the lungs with pure oxygen by rapid movement on a sharp October day when the sun shines brightly and the clear blue sky above.

To enjoy a walk, thick soles are needed. Stout, well fitted calk-skis, high gaiters neatly laced, will always 'set off' a pretty foot, and improve a homely one. To guard that sensitive portion of the human frame (for the sole of the foot is keenly sensitive to the changes from heat to cold or dryness to dampness) the boot sole should be thick, and as well made as human ingenuity can do it.

BOYS USING TOBACCO.—It is said that there are no boys now, but the following strong, sensible, good, sharp saying is designed for that portion of the genus homo, known as "Young America," who use tobacco: "It has utterly spoiled and utterly ruined thousands of boys. It tends to softening and weakening of the bones, and it greatly injures the brain, the spinal marrow and the whole nervous fluid. A boy who smokes early and frequently, or in any way uses large quantities of tobacco, is never known to make a man of much energy, and generally lacks muscular and physical, as well as mental power. We would particularly warn boys, who want to be anything in the world, to shun tobacco as a most baneful poison."

PEDESTRIAN FEAT IN SAVANNAH.—John Shepherd, who attempted to walk one hundred and twenty hours, in Savannah, without rest or sleep, became completely exhausted, and fell insensible when he had walked one hundred and nine hours and fifteen minutes. Previous to this his legs had swollen so that he was compelled to have them bound round with bandages, and his feet had burst the stout brogans which he through wore.

American intervention in Mexican affairs is considered by all resident foreigners in Mexico and by well-informed Liberals to be only a question of time. They say that Europeans are unfitted for pioneers and settler and that the Americans are the only people on the earth capable of restoring peace to Mexico.

GEO. A. PRINCE & CO.'S PATENT MELODEONS.

FORTY VARIETIES, WITH PATENT BASSO TENUTO, OR SUB BASS.

AUTOMATIC AND SCHOOL ORGANS. FINISHED IN ELEGANT ROSEWOOD, WALNUT OR OAK CASES.

Every Instrument Warranted for Five Years. NO CHARGE FOR BOXING OR SHIPPING. 40,000 NOW IN USE!

An illustrated Catalogue, containing full description of style, and testimonials of the most eminent musicians, as to the superior excellence of our instruments—will be sent free to any address.

THE AUTOMATIC ORGAN. In presenting the Automatic Organ, we boldly announce the greatest triumph in musical instruments of the age. During the past half century, the French and Germans have manufactured reed instruments with double bellows, and two pedals for the feet to operate; but the want of the reverse, or exhaustion bellows, (which is the only bellows used in our instruments), made it impossible for them to produce the mellow, rich and melo-tonic tone for which our instruments are celebrated.

Another objection to this method of blowing was, that both feet being occupied, no opportunity was offered for the management of the swell. Within the past two years, instruments constructed on this European plan of "double bellows" have been manufactured in (want of a swell) a lever has been projected from the centre of the instrument, to act on the swell, and operated by the knee. The inconvenience and contortion necessary to effect this object, are disagreeable enough to a gentleman, but to a lady the use of such an appendage is nearly impossible.

Our Automatic device obviates this difficulty entirely, the simple act of blowing with more or less force giving the desired increase or decrease in the volume of the tone. We predict for this invention a brilliant future.

MELODEON AND SCHOOL ORGAN. For seventeen years the superior excellence of our Melodeons has not been questioned, and for two years past the enormous demand has made it impossible for us to meet our orders promptly. With our increased facilities we feel warranted in assuring our patrons that their orders will be promptly met, and solicit a continuance of their patronage. GEO. A. PRINCE & CO.

CAUTION TO PURCHASERS. All of our instruments have upon the name boards, in full, "GEO. A. PRINCE & CO." When a dealer represents any other instrument as "the same as ours," it is usually a mere attempt to sell an inferior instrument, on which he can make a larger profit.

P. S.—A liberal discount to churches, clergymen and schools. Address, GEO. A. PRINCE & CO., Buffalo, New York. GEO. A. PRINCE, CHAR. E. BACON, C. F. S. THOMAS. (11P) Oct. 25—1y.
